Debbie:

Attached is a copy of my professional resume. For additional background information:

As the oldest son of a Navy carrier pilot, I've bounced around most of the coastal areas of this country growing up, somehow settling 200 miles inland in Austin, Texas after college where I led a variety of architectural offices and was involved in the local and state government process. Fortunately I was introduced to the Keys a number of years ago, fell in love with this place, and as a long time visitor, started searching for a second home here in the late 90's, finally purchasing a home on Plantation Key in 1999. I followed that up by selling my home and closing my practice in Austin in December of the following year, and became a permanent resident of Monroe County on New Years Day of 2001. Since then I have been active in the local community, and as Chairman of the Islamorada Local Planning Agency (planning commission), I've been working with the Village's Workforce Housing Committee trying to find an answer to our critical need for affordable housing, and would be honored to work with the Country's affordable housing committee to a similar end.

Please call should you need any additional information.
